POVERTY SIMULATION

**Poverty is a reality. . .
for many individuals and families.**

Approximately 31,000 people living in poverty in Chester County face daily challenges of choosing between rent, medicine, food, or bills. This Poverty Simulation is a learning tool to help the community understand what it could be like to be part of a family trying to survive from month to month and to inspire change.

Join us as we co-host this event with KACS to bring awareness to this issue facing our neighbors in Chester County and work to find solutions. This is a great follow up event to our Conversations for Compassionate Change community discussion on October 3.
